PROFESSIONAL SUMMARY

Innovative Computer Science student and Front-End Developer with expertise in React.js, mobile development, and modern database architectures. Proven track record of delivering scalable applications with focus on performance and clean code. Passionate about leveraging cutting-edge technologies to create meaningful digital experiences.

EDUCATION

University of Technology, Jamaica

2021 – Present

Bachelor of Science in Computer Science

Kingston, Jamaica

– Relevant Coursework: Data Structures, Software Engineering, Mobile Development, Database Systems, AI/ML

TECHNICAL SKILLS

- **Front-End:** React.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux
- **Backend & Database:** Node.js, Express.js, Supabase, Firebase, MySQL, PostgreSQL, MongoDB, RESTful APIs
- **Mobile & Tools:** Flutter/Dart, Git/GitHub, Docker, VS Code, Postman, Figma, Agile/Scrum

FEATURED PROJECTS

NutriHelp - AI-Powered Health Mobile App

Jan 2025 – Present

Lead Developer — React Native, Node.js, Supabase, OpenAI API

GitHub

- Developed mobile health platform with AI-powered nutrition recommendations and personalized health insights.
- Integrated computer vision for food recognition and automated calorie tracking.
- Built secure backend with Supabase for real-time data synchronization and user management.

Ace Express Bus Reservation System

Sep 2024 – Dec 2024

Full-Stack Developer — Flutter, Dart, MySQL

GitHub

- Created end-to-end booking platform with real-time seat availability and QR code ticketing.
- Implemented payment gateway integration and administrative analytics dashboard.

Online Banking Dashboard

Nov 2024 – Jan 2025

Front-End Developer — HTML5, CSS3, JavaScript, Java Spring Boot

GitHub

- Built responsive banking interface with transaction management and fund transfer features.
- Implemented secure authentication with JWT tokens and mobile-first design approach.

PROFESSIONAL EXPERIENCE

Intellibus

Jun 2026 – Present

Junior Software Engineer

Kingston, Jamaica

- Develop internal applications using Next.js and React.js to support organizational workflows.
- Build and integrate REST APIs with Node.js for application services and data exchange.
- Work with PostgreSQL to manage application data and support backend functionality.

Intellibus

Mar 2025 – Present

Technology Ambassador & Hackathon Coordinator

Kingston, Jamaica

- Promoted hackathon participation to 200+ students through workshops and mentorship sessions.
- Organized coding bootcamps covering React, REST APIs, and agile development methodologies.
- Mentored junior developers on project implementation and competitive programming strategies.

Freelance Web Development

Jan 2024 – Present

Front-End Developer

Remote

- Delivered responsive web applications for local businesses using React and modern web technologies.
- Specialized in performance optimization, SEO implementation, and user experience design.

ACHIEVEMENTS & LEADERSHIP

- **Intellibus Hackathon 2025:** Top 10 Finalist out of 150+ participants - AI solution development
- **Technical Leadership:** Led 5-person development team in Software Implementation course project
- **Open Source Contributions:** Active contributor to React, Flutter, and Supabase community projects
- **Academic Excellence:** Dean's List recipient, Top 15% of Computer Science cohort
- **Community Involvement:** Volunteer instructor for Code Jamaica initiative

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **In Progress:** AWS Certified Cloud Practitioner, Meta React Developer Certificate
- **Completed Courses:** Advanced React Patterns (Udemy), Flutter & Dart Complete Guide, Node.js Microservices, Azure Data Scientist Associate
